United States COVID-19 Cases and Deaths by State

Reported to the CDC since January 21, 2020

USA

6,958,632

TOTAL CASES

+42,340 New Cases

CDC | Updated: Sep 25

2020 12:16PM

USA

202,329

TOTAL DEATHS

+918 New Deaths

CDC | Updated: Sep 25

2020 12:16PM

USA

61

Deaths per 100,000 People

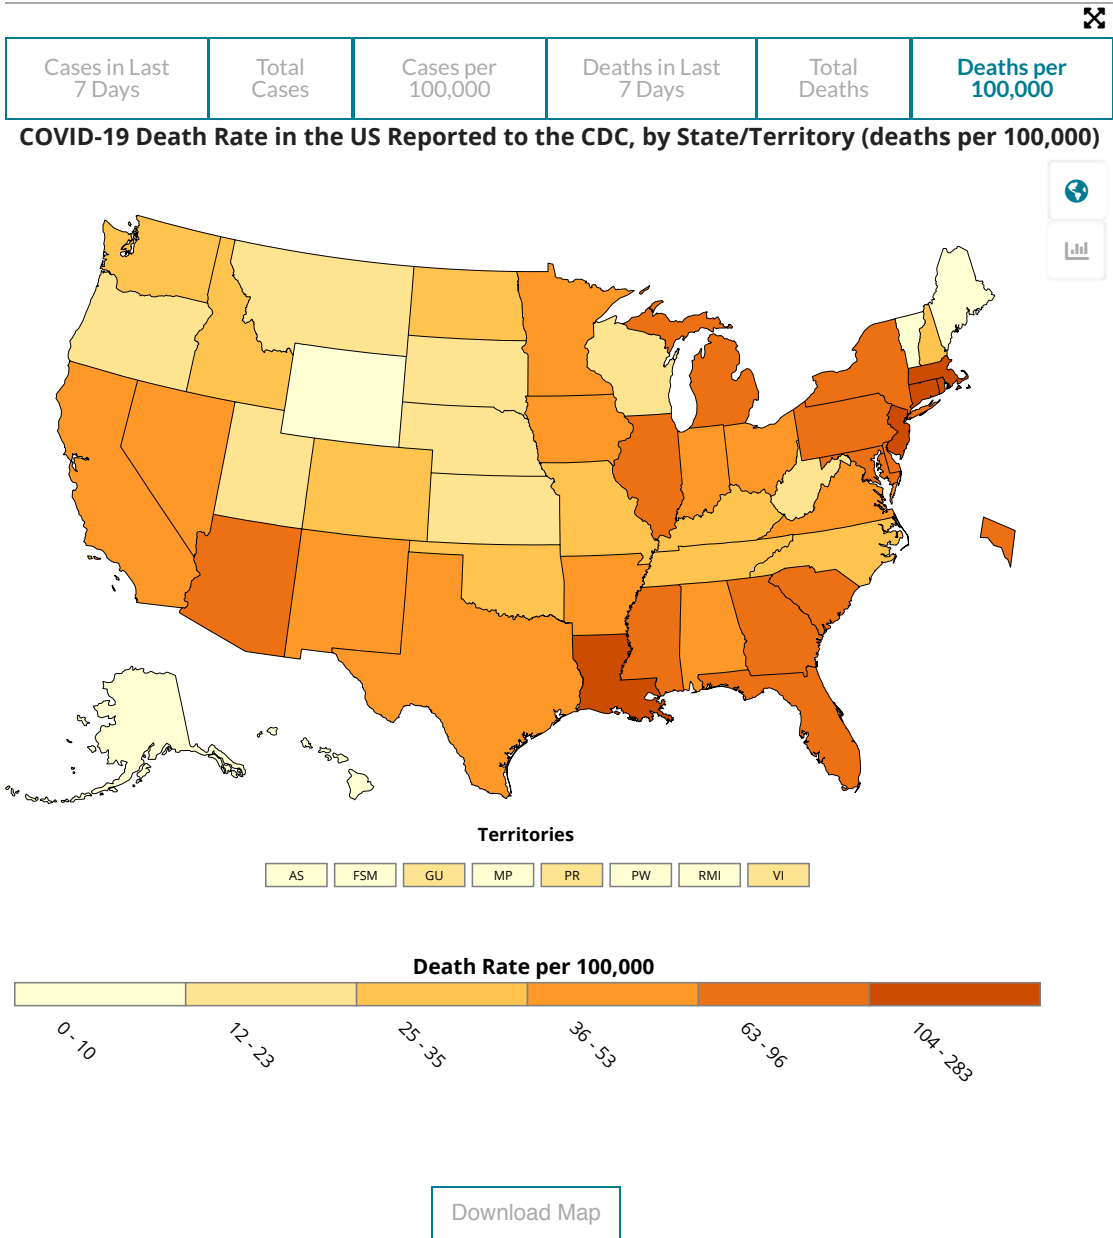

CDC | Updated: Sep 25

2020 12:16PM

Death Rate by State/Territory

State/Territory	Death Rate per 100,000

New York City*	283
New Jersey	180
Massachusetts	135
Connecticut	125
Louisiana	116
Rhode Island	104
Mississippi	96
District of Columbia	88
New York*	80
Arizona	77
Michigan	70
Illinois	68
Delaware	65
Florida	64
Georgia	64
Maryland	64
South Carolina	64
Pennsylvania	63
Indiana	53
Nevada	53
Texas	53
Alabama	50
Arkansas	41

Iowa	41
New Mexico	40
Ohio	40

and Death Data](#)

**Data Sources, References & Notes:** Total cases are based on aggregate counts of COVID-19 cases reported by state and territorial jurisdictions to the Centers for Disease Control and Prevention (CDC) since January 21, 2020, with the exception of persons repatriated to the United States from Wuhan, China, and Japan. The numbers are confirmed and probable COVID-19 cases as reported by U.S. states, U.S. territories, New York City, and the District of Columbia from the previous day. \*Counts for New York City and New York state are shown separately; data for New York State show total cases and deaths for the State excluding data for NYC. When not available to CDC this is annotated by N/A. Rates are calculated using U.S. Census Bureau, 2018 American Community Survey 1-year estimates and are shown as cases/100,000 people. The map shows total cases per state, new cases in the last 7 days per state, and the rate (cases/100,000) per state. The 7-day moving average of new cases (current day + 6 preceding days / 7) was calculated to smooth expected variations in daily counts. Demographic data for deaths is based on a subset of cases where case-level data is available. Case numbers reported on other websites may differ from what is posted on CDC's website because CDC's overall case numbers are validated through a confirmation process with each jurisdiction. Differences between reporting jurisdictions and CDC's website may occur due to the timing of reporting and website updates. The process used for finding and confirming cases displayed by other sites may differ.
